

Accelerate your career with a cutting-edge research experience at Tokyo Tech!

TOKYO TECH SUMMER PROGRAM 2019

June 4- August 8

Tokyo Institute of Technology (Tokyo Tech) offers a Summer Program for overseas undergraduate and graduate students to pursue individual research projects under the supervision of Tokyo Tech faculty members. In addition to gaining valuable international research experience, participants will have opportunities to learn about Japanese culture while experiencing life in one of the most exciting and technologically-advanced cities in the world.

Eligibility

- Undergraduate students majoring in science and engineering-related fields who will have completed their second year at the time of participation
- Graduate students in science and engineering-related fields

How to Apply

Contact the study abroad office or its equivalent at your home university and confirm whether or not nomination by your home university is required. If so, please follow your university's internal procedures before starting the Tokyo Tech application.

Submit the required items via Tokyo Tech's online application system.

Application Period Opens : November 9, 2018
Application Deadline : January 10, 2019 (24:00 JST)

Program fee

50,000 yen, including activity and insurance fees

Application, admission and tuition fees will be waived by Tokyo Tech.

Other expenses

Participants are responsible for other expenses, such as airline tickets, accommodation, transportation, meals, and miscellaneous costs.

Accommodation

Off-campus accommodation will be reserved by the program. Participants will commute to campus by bus or train at their own expense.

Financial support

A limited number of qualified students may be able to receive financial support from Tokyo Tech after arrival.
